Ladies and Gentlemen,

This moral report covers the events which occurred over the period from 1st January to 31 December 2015.

OBITUARY

The International Fencing Federation has been affected by the death of several friends:

JOÃO MARTINS (POR), 1926-2015

The President of the General Assembly of the Portuguese Fencing Federation, Mr. Joao Martins, died on 9 March 2015, at the age of 89. Mr. Martins played a very important part in the life of the Portuguese Fencing Federation, being the General Secretary during Chito Rodrigues and Jose Valarinho's presidencies. Despite never being a fencer himself he was husband, father and grandfather of fencers and father-in-law of Joao Pedro Vinha, one of the most important Portuguese maître d'armes of the 20th century.

Joao Martins started working for fencing in the 1960s as a director in one of Portugal's most important sports clubs of the time, Atheneu Comercial de Lisboa. Under his leadership, its fencing section soon became very powerful. Atheneu hired one of the most competent Portuguese coaches in Herculano Pimentel and developed an entire generation of talented fencers.

Joao Martins' organisational capacities were quickly recognised by the Portuguese Fencing Federation. When elected President in 1980, one of Chito Rodrigues' first decisions was to invite Martins to be his General Secretary, a role he played brilliantly until 2000, first with Rodrigues and then with Jose Valarinho. After that, he was vice-president of the General Assembly and became president of the General Assembly in 2006, after Frederico Valarinho's election. Joao Martins was emotionally close to our sport until his last breath. His wife, Margarida, started fencing at the age of 45, both his children, Maria Joao and Jaime were fencers, and his grandson Jaime was a talented epeeist.

To evaluate how important Joao Martins was for the Portuguese Fencing and how important fencing was in his life, one of his last sentences, after being asked by his daughter to sign the convocation for the General Assembly which took place at the end of March was: "If I don't go, you will, but the General Assembly must take place".

1.4 ANTI-DOPING

1.4.1 CONTROLS

The fight against doping was maintained throughout the period and no case of doping occurred in competitions run by the FIE.

- 419 tests were performed in competitions and 31 tests were conducted outside competitions.
- 317 tests during competitions and 6 tests outside of competition were performed by national anti-doping agencies using the ADAMS system (Anti-Doping Administration & Management System).

1.4.2 ANTI-DOPING EDUCATION

This year's highly successful anti-doping outreach program was conducted from 4 to 7 April 2015 during the Junior and Cadet World Fencing Championships in Tashkent.

It provided another excellent opportunity to inform and educate young fencers from many countries.

The event owes its success largely to the friendly and efficient cooperation and support provided the Uzbekistan Fencing Federation's, the local Organising Committee, and the three enthusiastic student volunteers who helped us overcome the local language challenges.

Following our well tried and tested formula, many young fencers (as well as coaches) played the computer-based WADA “Play True” Quiz game which forms the backbone of this educational event.

The FIE once again made available substantial cash prizes for the winners of the daily “Lucky Draw” competition.

Fencers and coaches who played the educational Quiz game were also given the popular free “USB” wrist-bands which contained copies of the Quiz game, anti-doping videos and a wealth of informative documentation which they were strongly encouraged to share with the wider fencing community on their return home.

Fencers from 61 countries, as well as a number of coaches and officials participated in the Quiz and took the opportunity of discussing doping issues with the anti-doping personnel.

They were expressly encouraged to copy and share the information with their fellow fencers, coaches and officials on their return home, thereby helping to spread the anti-doping message world-wide.

Altogether a record number of 528 participants (483 fencers, 36 coaches, 9 officials) took part in this successful Outreach programme.

We anticipate holding a similar anti-doping Outreach project during the 2016 Junior and Cadet World Fencing Championships.

1.5 INTERNET SITES, SOCIAL MEDIA, MAGAZINES

FIE MEDIA REPORT 2015

Over the course of 2015, the FIE developed its digital communication platforms and increased its online audience at a significant rate.

The FIE has a strong presence in social media and recently launched a new website, which continues to evolve to embrace new technologies and adapt to our needs. We have added the digital magazine ESCRIME XXI, which keeps fans up to date on our news. Those are the main pillars of FIE digital communication, which are developing digital fencing and that connect the sport with a broader audience than ever.

SOCIAL MEDIA

The FIE media team developed a dynamic social media strategy through 2015, following IOC recommendations and existing platforms. With two new platforms (Instagram and Google +), along with Facebook, Twitter and YouTube, the FIE now runs five social media platforms on a daily basis. Online views on the YouTube Fencing channel have reached 10 million, from 7.5 million in 2014. During 2015, with the Fencing Grand Prix and the World Championships in Moscow, the FIE was able to double the engagement rate of followers on Facebook, Twitter and Instagram. Additionally, with the cooperation of Chinese fencing, FIE runs Chinese social media platforms (Weibo, Youku).

FENCING DIGITAL MAGAZINE - ESCRIME XXI

In 2012, ESCRIME XXI became the first interactive digital magazine in five languages of any International Federation. In 2015 the digital magazine reached 500,000 page views, which is a 66% increase from 2014. The reason for such a large increase is the content variation from fencing stories around the world, as well as the efficient cross-communication on social media and national federations' platforms. The most popular territories are Russia, France, Mexico, Egypt and Taiwan. The magazine reaches out to a large population globally and increases fencing awareness, spreading a positive image for our sport.

NEW FIE WEBSITE FIE.ORG

At the beginning of 2015, the FIE launched its new website, merging the previous two sites into one in order to boost visits and maintain a consistent image. The website combines administration services for all national federations as well as press services. For the first time, at the FIE website viewers can watch competitions, highlights and photo galleries dedicated to specific events. Over the last year the new website received 1,096,000 page views, with the most popular territories being USA, France, Italy, Russia and Germany.

TV FACTS AND FIGURES* FOR THE FENCING WORLD CHAMPIONSHIPS IN MOSCOW 2015

The event was covered in 12 territories with an overall broadcast time of 270 hours, 57 minutes 39 seconds. A total cumulative viewership of 248.59 million was reached through the coverage of this event. Furthermore, the event gained a total of 2.39 million event impressions, of which 64% were derived from specific coverage (live, delayed and highlights), whereas 36% were generated through secondary coverage (news and magazines). The home market, Russia, covered more than 14 hours of broadcast time and had a cumulated viewership of more than 62 million people. The country with the highest cumulative audience and media impact was China. China reached 63.57 million viewers, totalling 945 million event impressions.

3. FIE ASSISTANCE WITH SPORTS DEVELOPMENT

3.1. ATHLETE TRAINING COURSES

Two courses were held over the period, with the FIE paying all expenses for these (air ticket, local transport, hotel, food, experts).

The FIE continued to pay for the athletes from the end of this course up until the individual competitions for the World Championships were completed.

These courses were organised in order to target the following points:

- Encouraging and facilitating the participation of all the national federations in the World Championships.
- Offering a week of intensive preparation to fencers who do not always have enough training partners to allow them to aim for a high international level.
- Introducing these young fencers with definite talent to the entire content and structure of a modern training session.
- Allowing them to benefit from advice from highly experienced fencing teachers, with the determination to implement this advice in practice.
- Providing them with their initial contact with the world fencing elite under the best possible conditions in order to stimulate them to redouble their efforts, giving them the encouragement to provide an example when they return to their training halls.

a) Tashkent (UZB), during the World Championships - juniors/cadets 2015:

The course involved foil (6 athletes) as well as épée (13 athletes).

Athletes from 19 countries took part, comprising 4 from Europe, 5 from Africa, 5 from America and 5 from Asia.

The following fencing teachers were appointed: Kuki Petru (ROU) for foil and Alexander Gorbachuk (UKR) for épée.

b) Moscow (RUS), during the World Championships - seniors 2015:

Athletes from 41 countries took part in this course involving all three weapons, comprising: 6 from Europe, 8 from Africa, 15 from America, 11 from Asia and 1 from Oceania.

Per weapon these numbers involved: 13 athletes with the foil, 20 athletes with the épée and 8 athletes with the sabre.

The following fencing teachers were appointed: Kuki Petru (ROU) for the foil, Zidaru Octavian (ROU) for the épée, and Tychler Gennady (RSA) for the sabre.

3.2. DAKAR SCHOOL

The FIE continues to provide its support to the African federations by training African fencers at the Dakar Fencing School as part of its fencing development programme in Africa.

The school was set up in 1999. By the end of 2016, seventeen years since it was established, the African federations will have one hundred and twenty-eight (128) specialists capable of running a programme for promoting fencing.

We should point out that the trainees have become more effective now that the conditions for their stay have been improved. This relates in particular to the students' journey from the accommodation centre to the stadium where their practical and theory classes are held, as this is now only a five-minute walk away.

COMPOSITION OF THE 10TH EIMA (ECOLE INTERNATIONALE MAITRES D'ARMES - INTERNATIONAL FENCING SCHOOL, DAKAR) CAMPAIGN.

The purpose of moving from the former accommodation centre to a new building which is nearer was to take up to twenty (20) trainees, given the considerable demand in previous years, and reduce the distance between the school and the centre.

THE ACCOMMODATION CENTRE

The accommodation Centre consists of a building on 3 floors with over 10 bedrooms and capable of housing up to twenty (20) students. Students are allocated single or double accommodation depending on the size of the room. Professional catering is provided in situ.

Trainees receive an allowance at the start of each month for breakfast and dinner and are responsible for organising themselves and ensuring that they eat properly and arrive at their lessons on time.

RECRUITMENT CONDITIONS

Students are recruited by means of sending out a call for applications involving clearly defined conditions. These forms are sent to all the affiliated African federations with a copy forwarded to the FIE. Federations which have never sent any candidates or who have fewer candidates than the others take priority.

THE PROGRAMME :

Fencing topics are taught from 7h30 am to 12h30 and from 14h30 to 17h.

THE INFRASTRUCTURES

Since 2013, the EIMA has benefited from the availability of an armoury within the national stadium. This has allowed the teaching staff and the students to have more independence, with no restrictions on organising their working hours. Converting the area involved:

- Renovating and providing equipment for the armoury in terms of strips, mats and mirrors
- Renovating and equipping the staff room (cupboards, air-conditioning units, desks and armchairs).
- Renovating and equipping the classroom (storage cabinets, individual tables, chairs, air conditioning units, etc.)

As in previous years, teachers and trainees received their equipment packages (weapons and clothing) from the FIE. In addition to this free equipment, pupils receive an allowance from the FIE on starting and completing training and this constitutes their pocket money.

THE TEACHING STAFF

Staff members are as follows:

- Julien OUEDRAOGO- Burkina Faso- Sabre and technical coordinator
- Baytir Sidy DIOP- Senegal- Epée
- Aguénam AKLESSO- Togo- Foil
- John KAMATE- DR Congo- Collective teaching
- Contracted staff who basically consist of staff teaching complementary subjects.

In addition to this permanent staff, FIE experts comprising the chief executive and her assistant, as well as the Sports director and his deputy, carried out visits in September and October 2015, to verify the accommodation conditions and teaching methods, suggesting corrective action if necessary.

These various visits meant that all the problems could be identified and corrective action is under way.

FINAL EXAMINATION

The trainees finished their training with an examination on completion. The panel, consisting of the coaches, was chaired by Madame Ao JIE, deputy Sports director of the FIE.

The trainees were assessed as students and as fencing teachers. At the end of the examinations, all the trainees passed and were declared to be fit to develop conditions for practising the discipline in their country.

3.12 «CLUB MOVEMENT INITIATIVE»

The Club Movement Initiative (CMI) was launched in 2014 with the aim of “creating an international network of major fencing sites and establishing a system to develop their assets in terms of talent”.

After approving the business plan:

- 1) We identified several clubs
- 2) We established formal relations with them by signing agreements which also committed their respective national federations
- 3) We launched the project in the third quarter of 2014.

The CMI network currently has 9 sites in 8 countries. Our partners are:

1. Tauberbischofsheim Fencing Club, Germany;
2. Fencers Club New York, United States;
3. Cercle d’Escrime Melun, France;
4. Novosibirsk Regional Fencing, Russia;
5. Smolensk Academy of Sport and Physical Culture, Russia;
6. Scherma Modica, Italy;
7. Vasas Sport Club, Hungary;
8. Laoshan Youth Fencing Training Center, China;
9. National Training Center, Japan.

We welcomed 58 coaches from Europe, Africa, Asia and the Americas as part of the training for coaches organised jointly by the FIE and our partner clubs.

- 1) to continue with the project as of 2016 and
- 2) to amalgamate the finances for the project into the FIE budget.
