

FIE GRAND PRIX CALI 2019

Men's & Women's Épée:

3th to 5th May 2019

The Colombian Fencing Federation has the pleasure to invite the worldwide fencing community to our Grand Prix that will be held in Cali, Colombia, from 3th to 5th May 2018.

Cali is situated in the department of the "Valle del Cauca" in the southwest of Colombia. The city of Cali is famous in South America for being the "sports capital of Colombia" as it has organized numerous inter-continental and international sports events as for example the Panamerican Games, World Games and many other World Championships of swimming, football, basketball, cycling and other sports.

But Cali is also famous for being the "Salsa Capital of the World" as well as for being the musical and gastronomical epicenter of the Pacific Colombian culture. Furthermore, Cali is the business center and an obligatory stop-over on the way to the Pacific coast. Cali boasts a tropical climate and its inhabitants are equally warm hosts and especially welcoming to sports-women and -men.

In Cali you can also appreciate the beautiful colonial architecture with the neoclassical San Pedro Cathedral in the old town featuring paintings of the Quito School. In the vicinity of the Cathedral you will find the 18th- and 19th-century San Francisco Religious Complex where in the Merced Chapel the first mass was held after Cali was founded in 1536.

Discovering its culture its love of live manifesting itself in the Salsa, a Caribbean rhythm, which is interpreted and danced in a particular way in Cali, makes a visit here an exceptional experience.

Cabaret style Salsa shows are a hit with Colombian and overseas visitors.

This Colombian City is also called "the branch of heaven" where at around 5pm a wind blowing from the Pacific coast is cooling down the hot temperature of the day which makes this the perfect time for a walk through the old town where you can appreciate the beauty of its colonial past and the world famous beauty of its women.

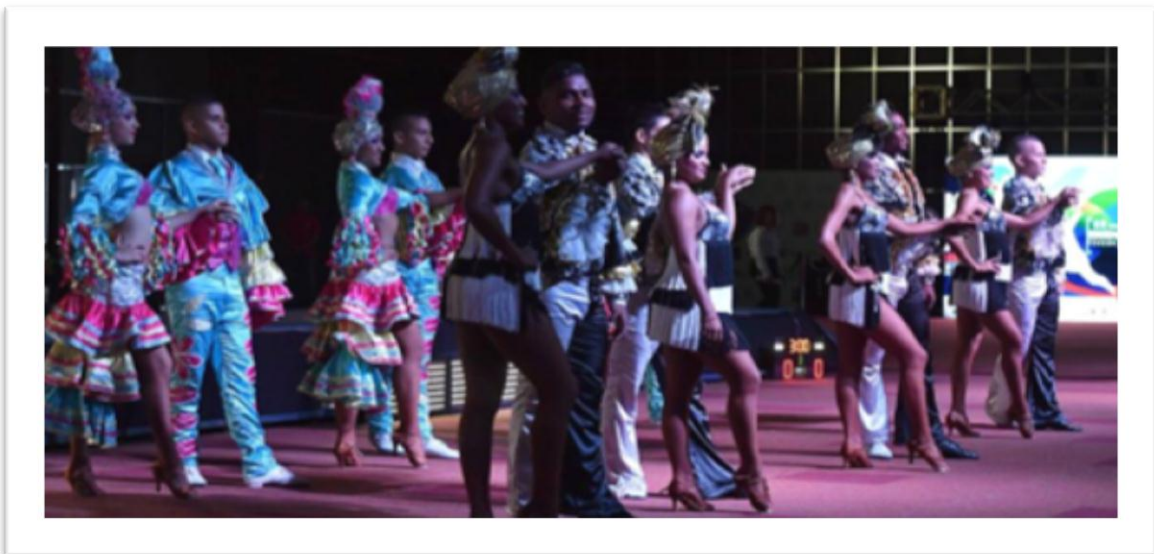

Weather: 31 ° C/87 F, wind NE 5 km / h, 56% humidity
