MESSAGE FROM THE PRESIDENT

Dear friends,

The FIE is very pleased to celebrate the 2009 Fencing World Championships in Antalya and I thank the Turkish Fencing Federation for organising this event.

Antalya is the first senior fencing rendezvous to bring together the top international fencers again after the unforgettable Olympic Games in Beijing, where our sport filled the organisers, spectators and TV audience with wonder.

If we wish to continue our momentum and optimise our efforts to promote our sport, our fencing family must continue on the path of progress with a spectacular development on the horizon.

I am delighted these Championships are being held in a country which will use this event to increase the popularity of fencing and stir up a keen interest among the young Turks, and I encourage them to practice our noble sport.

I am certain that the fencers competing in Antalya will have their hearts set on giving the best of themselves and will throw themselves with fair play and passion into the bouts leading up to the podium.

I hope with all my heart that the spectators attending this event will get a tremendous amount of pleasure out of following the bouts and matches of our athletes and I wish the Turkish Fencing Federation much success.

Alisher Usmanov
President

Dear Guests,

Whereas our world is experiencing its most magnificent era in technologic, scientific, cultural and sportive terms since the very first man, it is also experiencing an era that needs peace probably more than ever. In such a period, we undoubtedly need the manner of sport that glorifies human spirit and ensures cohesion among countries for peace.

Exactly in this period, we are really pleased to entertain our esteemed guests in an international organization to contribute to cohesion of all nations of the world and the world peace
Dear Fencing Lovers,

You should note that every individual visiting our country for the World Fencing Championships is our honor guests. Our prior task is to entertain them in the best way possible and to leave the image of "Turkey, the Country of Tolerance and Peace" in every participant's mind.

As Turkey has successfully undertaken the role of the ambassador of peace in its territory and all across the world, Turkish Fencing Federation has also undertaken any responsibility for any duty to contribute in this peace.

I hope you, our esteemed guests, will enjoy Antalya, Turkey and a gentlemanlike fencing contest...

I, hereby, would like to say "welcome to our country" to all the participants of the World Senior Fencing Championship" and wish you success in the contests.

Müminhan Bilgin

President of Turkish Fencing Federation

TURKIYE
FENCING
FEDERATION

COMPETITION SCHEDULE

Individual competitions

	12h30	Men's Epée – table of 64
	17h30	Finals

5 October	9h00	Men's Sabre – table of 64
	12h30	Women's Epée – table of 64
	17h30	Finals

Team competitions

6 October	8h30	Women's Sabre
	9h40	Men's Foil
	17h30	Finals

7 October	8h30	Women's Foil
	8h30	Men's Epée
	17h30	Finals

8 October	8h30	Men's Sabre
	9h40	Women's Epée
	17h30	Finals

ANTALYA

Hadrian's Gate

The city of Antalya, situated on coastal cliffs and surrounded by the Taurus mountain range, is nowadays the Turkish tourism capital, named “Turkish Riviera”. Its population of about 800'000 people has considerably increased in the past 35 years, when development and investment began to transform the city into a major international resort.

Attalos II, King of Pergamon, founded the city around 150 BC, naming it Attalia and using it as naval base for his powerful fleet. However, uncovered remains dating to the 3rd century BC after excavations that were held in 2008 in a central city district, suggest that Antalya could have been founded earlier than supposed.

King Attalos willed his kingdom to the Roman Empire after his death in 133 BC and since then, the city was also occupied by the Byzantine Empire and by the Seljuk Turks until it was conquered by the Ottomans in the XV century and renamed Adalia. Italians also briefly occupied the city by the end of the First World War until the founding of the Turkish Republic in 1923.

The restored historical area of Kaleiçi is the nerve center of Antalya with its hotels, bars, clubs, restaurants and shopping points. The sites of interest include ancient monuments like the City Walls, Hidirlik Tower, the marble gate of Hadrian, the Clock Tower, the Kesik Minaret or the Yivli Minaret, which became the city symbol. Its most famous beach is Konyaalti but Lara and Karpuzkaldiran are also well known.

Antalya is also very close to ancient archeological sites like Aspendos, 45 km east from the city and famous for its ancient Roman Theatre, the ancient cities of Perge, 17 km east, Termessos, 34 km north-west or Side, surrounding burg. All these sites are surprisingly well conserved.

TISSOT, Official Timekeeper

New competition program

This year for the first time, the competitions will be separated into three parts of three days each.

- 30 September - 2 October: preliminary round, 2 events per day
- 3 to 5 October: direct elimination table of 64 and finals, 2 events per day
- 6 to 8 October: direct elimination table and finals, 2 events per day

The main reason for not having one final per day only comes from a TV request. This change will allow having six days of finals per day. This newness will certainly increase TV audience and also the interest of spectators.

The three weapons

Épée

The épée is a thrusting weapon only. Attacks with this weapon are therefore made with the point only. At épée, the target includes the whole of the fencer's body including his clothing and equipment. Thus any hit which arrives is counted, whatever part of the body (trunk, limbs or head), clothing or equipments is touched.

Foil

As épée, foil is a thrusting weapon only. Offensive actions with this weapon are made therefore with the point only. At foil, only hits which arrive on the target are counted as valid, but the non-valid hit (white light) stops the bout between the two foil fencers.

The target excludes the limbs and the head. It is confined to the trunk, the upper limit being the collar up to 6 cm above the prominences of the collar bones.

Sabre

The sabre is a weapon for thrusting and cutting with both the cutting edge and the back of the blade. All hits made with the cutting edge, the flat or the back of the blade are counted as good (cuts and back-cuts). Only hits which arrive on the target area are counted as valid. A hit which arrives on a non-valid part of the target is not counted as a hit; an off-target hit does not cause any signaling of the machine and does not affect the existing byplay of the fencing phrase in any way. The target comprises any part of the body above a horizontal line drawn between the top of the folds formed by the thighs and by the trunk of the fencer when in the on-guard position

The venue - Anfaş Expo Center

A.E.C. (Antalya Expo Center) has been put into service by Anfas (Antalya Fair Management and Investment Inc.) in April 1999. Occupying an area of 65.000 m², AEC has a total of 40.000 m² of covered exhibition area on two floors. These two floors are interconnected by two way escalators as well as stairs on all four corners. With the astylar architectural design of its main halls, A.E.C. is highly convenient for accommodating up to 10.000 people for various events such as sports activities, concerts, theater shows and accommodating up to 4.000 people for conference organizations. With 6 main halls, 18 different panel, board and study rooms of various sizes accommodating up to 800 people, a parking lot with a capacity of 800 cars, our center continues to provide service as a modern complex.

A.E.C. a modern exhibition and conference center fully meeting international standards, has been established in April 1994 with the collaboration of public and private sectors in order to support domestic and foreign trade in Anatolia. Antalya Special Provincial Administration, Antalya Metropolitan Municipality, Antalya Chamber of Commerce and Industry, ANSIAD and prominent businessmen of the region are among the co-founders of the center.
