THE FIE

Today, the FIE has 150 member federations andits head office is in Lausanne (SUI), the Olympic Capital. At the FIE Elective Congress held in Moscow (RUS) in December 2012, Mr Alisher Usmanov (RUS) was re-elected as President to lead the federation until 2016.

He has been the FIE President since 2008. Mr Usmanov appointed Mr Frederic Pietruszka (FRA) as Secretary General and Mr Jacek Bierkowski (POL) as Secretary Treasurer. The major objectives of the FIE 2012-2016 are

- To actively promote the development of fencing throughout the world.
- To establish fencing as a global sport and media product.

The means to reach this aim is to continue giving financial and organisational assistance to confederations and national federations. The FIE conducts and finances administration courses, coaches training courses, athletes training camps and distributes equipment. In addition, the FIE continues to enhance the visual appeal of the sport and to make fencing more accessible to a broader audience.

FIE GOVERNANCE

The FIE is governed by the FIE Executive Committee which is composed of 21 members. 16 members including the President are elected by the FIE Electoral Congress which takes place every four years. The FIE statutes provide that they all have to be of different nationalities and that at least 20% of the members be women. The President of each of the five continental Confederations recognised by the FIE is also full member of the Executive Committee.

THE FIE EXECUTIVE COMMITTEE 2012-2016

President: Alisher Usmanov (RUS)

Secretary General: Frédéric Pietruszka (FRA) Secretary Treasurer: Jacek Bierkowski (POL)

Vice-Presidents: Giorgio Scarso (ITA), Wei Wang

(CHN), Ana Pascu (M.H.) (ROU)

Members: Donald Anthony (USA), Erika Aze (LAT), Tamer El Araby (EGY), Max W. F. Geuter (M.H.) (GER), Velichka Hristeva (BUL), Guk Hyeon Kim (KOR), Novak Perovic (RSA), Oleg Peskov (KAZ), Stanislav Pozdnyakov (RUS), Ferial Nadira Salhi (ALG), Yuki Ota (JPN).

Confederations Presidents: Mbagnick Ndiaye (SEN), David Munguia Payes (ESA), Celso L. Dayrit (M.H.) (PHI), Frantisek Janda (CZE), Helen Smith (M.H.) (AUS).

EDITORIAL

Dear friends,

I would like to welcome you to the FIE Cadet and Junior World Championships in Tashkent.

I am delighted that junior fencing is actively growing. The FIE's activities to promote fencing around the world are demonstrating noticeable results. An increasing number of countries are bringing through fencers who are able to compete on the world stage and fight for medals.

These championships are especially important to me. The tournament is taking place in my home country of Uzbekistan. I started to fence and won my first titles right here in Tashkent.

Tashkent is hosting the main tournament for young fencers for the very first time. More than a thousand competitors from over one hundred countries will take part in individual and team events in foil, epee and sabre. This is not a coincidence. Thanks to extensive work led by Uzbekistan's President, the country is now able to host toplevel sporting tournaments.

I am sure that with the support of the Government of Uzbekistan, the Uzbekistan Olympic Committee, the Ministry of Culture and Sport, and the Uzbekistan Fencing Federation, the championships will be held at the highest level.

I would like to thank the athletes, coaches, volunteers and organisers, without whom these championships in Tashkent would not be possible.

I wish all of the competitors the best of luck. May the best athlete win!

Alisher Usmanov,

THE REPUBLIC OF UZBEKISTAN

The Republic of Uzbekistan occupies a Central place in Central Asia, mainly located in the area between the Amu Darya and Syr Darya rivers. The national territory is 448,9 thousand km2, Total border length - 6221 km. From the North between the rivers Amu Darya and Syr Darya extends the Kyzyl Kum desert, which occupies over 300,000 km2. Mountains and foothills is 1/5 the country.

A visit to Uzbekistan is a unique opportunity to plunge into the ancient history of these places, this large segment of the Great silk Road, to see and to touch the treasures of material culture, magnificent monuments, which have reached us through the centuries as the inheritance of different eras and dynasties and how many opportunities give nature lovers wondrous beauty of these places! The soft contours of the mountains, winding rivers, which carry their crystal water through the oases and deserts, bright green valleys. Only here under the hot Asian sun ripen and poured the juice is the most delicious fruit and vegetables. In addition to beautiful landscapes and great history, Uzbekistan is the 4th largest country in production of cotton in the world, 7th in gold production and has significant reserves of oil and natural gas, including uranium, silver, copper, zinc, coal and textile industry.

The population of Uzbekistan is over 30 million people.

The main part of the population is Uzbeks, Total Terrette Tovovo

which accounted for almost 80% of the total population. Uzbekistan – a multinational Republic, where live representatives of more than 100 nations and nationalities.

THE CITY OF TASHKENT

Tashkent is the most populated city in Central Asia, a political, economic, cultural and scientific center of the country. According to official data, the population of Tashkent is about 2, 3 million people. This modern city is located in the north-eastern part of the country, in the foothills of the western Tyan Shan, valley of Chirchik, at the height of 440-480 meters above sea level. The history of modern Tashkent counts more than 2500 years.

In written sources, the name of the city was first reported in the beginning of the 11th century. According to Abu Rayhan Beruni, the word was originated from Turkic "Tash" ("Stone") and "Kent" ("City"). Thus, Tashkent means "Stone City".

Of course, speaking of Tashkent, it is impossible not to mention its markets. Aromas of eastern spices, ripe fruits and vegetables, and hot "lepeshkas-national bread" will create the feeling that you are in an Eastern tale. At the bazaar you can also find jewelry and painted children's cradles ("beshik"), gold embroidery, the national coffers decorated with ornaments made of metal, embroidered and guilted Suzane male chapans, carpets from Khiva, Samarkand and Bukhara.

Cultural life in Tashkent is full of interesting events. There are many theaters, a conservatory, museum, exhibition and concert halls, stadiums and swimming pools,

> cafes, restaurants in the capital. Tashkent is called a solar capital, and this epithet is originated not only in relation to climatic conditions, but also because the city is famous for its hospitality, guests are granted a warm welcome in Uzbekistan.

THE VENUE

THE VENUE FOR PRELIMINARY COMPETITIONS

Gymnastics Sport complex:

- Address: Yunus Abad district, Hoji Ota 2A, Tashkent City, Uzbekistan.
- Competition area: 5000 sq/m, width 50m x length 100m
- Total number of seats: 4500 seats
- Height: 30m

The "GSC" complex considered one of the biggest gymnastics halls in the world. It is located 8-10 minutes' drive from the center of the Tashkent city. Even though the complex is quite new several prestigious tournaments such as World cup series in Rhythmic Gymnastics 2011, 2012, Asian Championships for Artistic Gymnastics 2014, World Cup FIG Rhythmic Gymnastics 2014 and Wrestling World Championships have been holding in it.

THE VENUE FOR FINALS

Sahovat Sport Service:

- Address: Yunus Abad district, Hoji Ota 2A, Tashkent City, Uzbekistan.
- Competition Area: 1800sq/m, length 60m x width 30m
- Total number of seats: 3200 seats

The "SSS" complex is modern sports complex, which is located just besides "GSS" complex. In this sports complex several World and Asian championships of various kinds of sports had been taking place. Some of them are Wrestling and Judo World Cup series, Taekwondo and Boxing Asian Championships, Tashkent President Tennis cup championships and Kick Boxing World championships.

9 th DAY - April 9 th	
Team Junior Men's Foil	T8 – Semi Finals - Final
Team Junior Women's Epée	T8 – Semi Finals - Final
Team Junior Men's Sabre	T8 – Semi Finals - Final

THE RULES

INDIVIDUAL EVENTS

DURATION AND SCORING:

At foil and epee, all bouts in the individual events consist of three periods of three minutes, with one minute between periods, or the bout lasts until one fencer has scored 15 hits. If the third period is completed before either fencer has scored 15 hits, the fencer with the most hits is declared the winner. If the scores are tied after the third period, there is a further one minute of fencing time. One fencer is randomly given priority.

The winner is the first fencer who scores a valid hit; if no hits are scored, the winner is the fencer with priority.

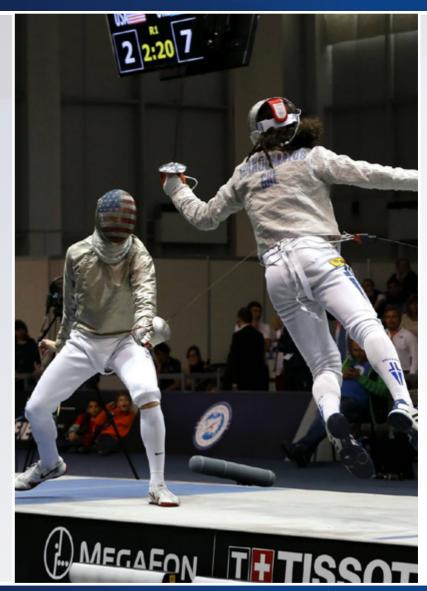

In sabre, there is a one-minute break after one fencer has scored eight hits. After this break, the bout is resumed until one fencer has scored 15 hits.

TEAM EVENTS

DURATION AND SCORING:

In the team events, each match consists of nine bouts of three minutes each, to a maximum of 45 hits. Each bout lasts three minutes, or until one team's score has reached the next multiple of five hits: a score of 5hits after the first bout, a score of 10 hits after the second bout, a score of 15 hits after the third bout, and so on. If in the ninth bout the time elapses before either team has scored 45 hits, the team with the most hits is declared winner.

If the score is tied after the ninth bout, there is a further one minute of fencing time. One team is randomly given priority. The winner is the first team who scores a valid hit; if no hits are scored, the winning is the team with priority.

SPECIAL RULES

FOR THE MIXED TEAM COMPETITIONS TO BE APPLIED AT THE 2015 CADET WORLD CHAMPIONSHIPS

FORMULA FOR MIXED TEAM COMPETITION

The ranking of the teams is calculated by adding together the positions obtained by the six team members in the individual events. In case a member of the team did not participate in the individual competition of the weapon the team member is fencing in the Mixed Team Competition, the team member will be awarded the place equivalent of the total number of participants of that individual event + 1.

The competition is run by integral direct elimination. Match for the 3rd place will be fenced, but the qualification places for T5-8 and T9-16 will not be fenced.

VIDEO REFEREEING

Video refereeing will be used from T16. Each fencer has one possibility per match to challenge the referee's decision. This possibility is retained if the decision of the referee is changed.

SELECTION PROCESS IN THE MIXED TEAM COMPETITION

The number of participating teams is subject to the inscriptions of the National Federations.

All national teams consist of 6 fencers (foil, epée and sabre, men and women). The final composition of the teams is to be announced until 19.00 the day preceding the team competition.

ORDER OF RELAYS IN THE MIXED TEAM COMPETITION

In the course of the Mixed Team Competition male and female relays of the same weapon will follow each other. The order of the matches will be decided by a sequence of two draws, which takes place the day preceding the team competition in the presence of the Heads of Delegations of the concerned National Federations. The first draw decides the gender (boys/girls) of the first match of the first relay. The gender is then alternated between each match. The second lottery will decide whether foil or epée will be the weapon of the first male and female relays. The weapon of the second men and women relays is fixed for sabre.

INJURY IN THE MIXED TEAM COMPETITION

In case of withdrawal caused by injury to one of the team members occurring after 19.00 on the day before the competition, there is no possibility for the team to call a substitute. The team can continue the competition but the result of the fight in the team match, in which the withdrawn fencer should have fenced, will be that the withdrawn fencer scored zero hits and his or her opponent the maximum number of hits possible.

If the withdrawn fencer was supposed to fence the last relay of the team match and is not replaced by a substitute, the team must withdraw from the competition.

COACHES IN THE MIXED TEAM COMPETITION

For each team the Head of Delegations should select one coach. The coach is allowed to remain with his/her team within the team box. The name of the coach for each team must be announced to the Directoire Technique at the latest at 19.00 the day preceding the competition.

THE THREE WEAPONS

FOIL

The foil has a total length of 110cm and its bladeis 90cm long.

The total weight of the weaponmust be less than 500g.

The foil is a thrusting weapon only. Fencers canonly score a hit by striking the point of their weaponon the defined target area of their opponent which is limited to the torso only. Non-valid hits also stop the bout, but are not counted. Foil is governed by the rules of right of way. The fencer who starts an attack has the right of way. In order to avoid being hit, the opposing foil fencer usually attempts to parry the attack and, if this is successful, riposte. To avoid being parried, the attacker may use several tactics, such as disengages or coupes, which are different ways to avoid the opponents' blade.

EPEE

The epee has a total length of 110cm and its blade is 90cm long.

The total weight of the weapon must be less than 770g. As foil, the epee is a thrusting weapon only and the epee attack is with the point of the weapon only.

At epee, the target area is the entire body, head to toe, including any clothing and equipment. Unlike in sabre and foil, in epee there are no right of way rules regarding attacks. Any hit which arrives is counted. Touches are awarded solely on the basis of which fencer makes a touch first, according to an electrical recording apparatus.

Also, double-touches are allowed in epee, although the touches must occur within 40 milliseconds (1/25 of a second) of each other.

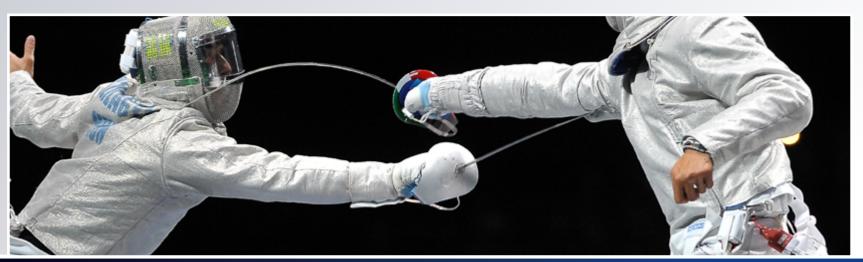

SABRE

The sabre has a total length of 105cm and its blade is 88cm long.

The total weight of the weapon must be less than 500g. The sabre's basic difference from the two other weapons is that a hit can be made with the cutting edge and not only with the point. The target area consists of everything above the waist, including the head and both arms.

As foil, sabre is gwoverned by the rules of right of way. The fencer who starts an attack has the right of way.

In order to avoid being hit, the opposing sabre fencer usually attempts to parry the attack and, if this is successful, riposte. To avoid being parried, the attacker may use several tactics, such as disengages or coupes, which are different ways to avoid the opponents' blade

COMPETITION FORMULA

INDIVIDUALS

Qualification: The 16 fencers participating in the competition who are ranked highest in the current FIE ranking are exempt from the preliminary phase and enter directly the main 64 direct elimination table (DE). The competition starts with a qualifying pool (round-robin) of six or seven fencers. The results from the pools are used to establish the seeds for the next part of the competition.

A pool bout ends when one of the fencers has scored five hits or when three minutes of effective fencing time have passed. Then fencer with the higher score is declared winner. If the score is tied after three minutes, there is given one minute extra time. One fencer will be randomly given priority. The winner will be the first fencer to score a valid hit. If no hits are scored, the winner is the fencer with priority.

After the pool stage, the 16 best seeded fencers enter directly into the main 64 DE. The rest is seeded into preliminary DE from which another 32 fencers qualify for the main 64 DE.

DIRECT ELIMINATION

At foil and epee, all bouts in the individual events consist of three periods of three minutes, with a one-minute break between periods, or until one fencer has scored 15 hits. If the third period is completed before either fencer has scored 15 hits, the fencer with the most hits is declared the winner. At sabre, if one fencer has scored eight hits, there is a one minute break.

Medals: There is no match for the bronze medal. The two fencers who lose the semi-final matches are placed equally third and are both awarded with the bronze medal.

TEAMS

In team events, all teams are directly seeded into the direct elimination table according to the team world ranking position.

Each match consists of nine bouts to a maximum of 45 hits. Each bout lasts three minutes, or until one team's score has reached the next multiple of five hits: a score of five hits after the first bout, a score of 10 hits after the second bout, a score of 15 hits after the third bout, and so on. If the ninth bout is completed before either team has scored 45 hits, the team with the most hits is declared the winner. If the scores are tied after the ninth bout, there is a further one minute of fencing time. One fencer ise randomly given priority. The winner is the first fencer to score a valid hit; if no hits are scored, the winner is the fencer with priority.

Medals: There is a match for the bronze medal.

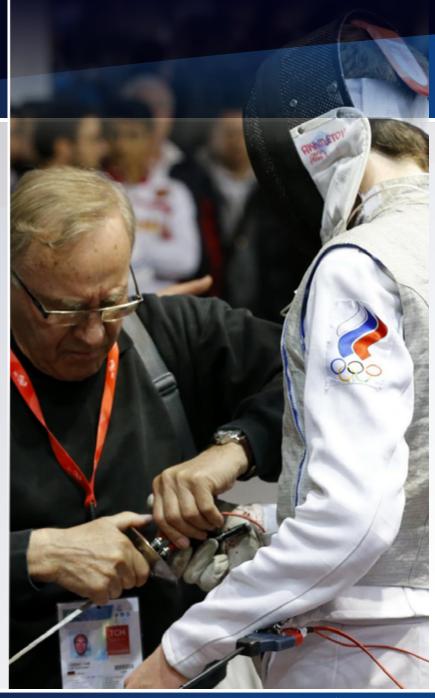

REFEREEING

FENCERS MAY ASK FOR A REVIEW OF A DECISION BY VIDEO-REFEREING.

APPEALS:

- In individual events each fencer has two possible appeals in direct elimination bouts and one in a pool bout.
- Should the referee agree with fencer who appealed for video-refereeing, the fencer retains his right of appeal.
- In team events, the fencers have the right to a single appeal for videorefereeing per relay and are entitled to retain this right should the referee agree with this appeal.
- In case of an appeal for video-refereeing, the referee walks over to
- the video-consultant. They watch the video together and after consultation with the consultant delegate, the referee gives his final decision. No other review of the same action can be requested.
- If the fencer's scores are equal at the end of the match, for the decisive hit, the referee must use the video refereeing.
- The video-consultant may at any time request that the referee review his decision.
