#### 4. Diplômes, formation, expérience sportive / Diplomas, education, sport experience / Diplomas, formación, experiencia deportiva:

*I had my scholar studies done in Budapest. After finishing my high school, I had attended the University of Commerce, Catering and Tourism in Budapest, then I successfully finished my studies on the University of Journalism.*

*Besides my studies, I have been participating in competitions as a sabre fencer. In the junior category, I was awarded with the bronze medal in the World Championship, in 1983. Later on, I was a member of the senior fencing squad for several years, I won some medals in the individual category at many sabre world cups. I am a Universiade gold medalist and three times European cup winner as well. In 1991, just after finishing my fencing career, I became a fencing referee, what was an important part of my life for a decade. In both foil and sabre I had the opportunity to referee a World and a European Championship final, and I could work on the Olympic games as well. I resigned as a referee in 2001, after the World Championship in Seoul. The reason was the lack of time, because of my other works.*

*At this time, I have been working as a journalist since 10 years, and I was the editor in chief of a Hungarian daily newspaper. I was working for 20 years (1991-2011) at regional and national daily newspapers, during my time, I received incredibly high rated professional and national awards. After two decades, I decided to finish my journalist career, therefore I had the time and opportunity - thanks to the Hungarian Fencing Federation - to work in my beloved sport again.*

*In the recent years, I was always a member or leader of the national and international Directoire Technique. I was working as a DT leader or member on both the Hungarian World Cup and Grand Prix events, and on European and World events (Cadet and Junior World Championship, U23 European Championship). This way I would also like to say thanks for the FIE and EFC members who gave me the opportunity and made all this possible.*

*My target to enter to the FIE "Rule Commission" is because of the interest in the competition and rule system of fencing since I am a child. I feel that as an experienced DT member I am comfortable in this area. On the other hand, my point of view is that, respecting the century-old traditions of the sport, I also think, in some cases, several rule changes would be necessary, to make our beloved sport easier to understand for everyone and more popular worldwide.*
