### **Stanislav Pozdnyakov**

President of the European Fencing Confederation

Ladies and Gentlemen,  
dear friends of our sport,

With great joy on behalf of the Management Board of the European Fencing Confederation and own behalf, I would like to welcome all participants at the beginning of the Cadet and Junior European Championships in fencing in Poreč. In particular, I welcome all the fencing, coaches, referees and activists of the European Fencing Confederation.

Championships taking place in Poreč is thanks to the enormous commitment of all people working in the preparation of the event, organisers, activists and volunteers.

No less value is given us support and hospitality of the authorities of Poreč and the possibility of organising in this city Cadet and Junior European Championships in fencing. For its part, I hope that this great cooperation will be able to be continued in future years.

Many thanks will also be given to the sponsors and partners of this tournament, who are supportive of the organisers. Without their lecture, it would be difficult to maintain the organisation of this event at such a high level.

I wish success to all fencers, coaches satisfied with the results, and fans great excitement and wonderful memories of participation in Cadet and Junior European Championships in Poreč!

### **Marko Kallay**

President of Croatian Fencing Federation

Dear fencing friends,

The fact that we are organising one of the biggest cadets and juniors fencing events in the world is not a coincidence. It is also not a coincidence that our host is the city of Poreč. This city and its inhabitants know of the connection of fencing and Poreč through dozens of great championships being held here.

It was inevitable that fencing finds its way here not only through the organisation of big competitions, but also in a form of a fencing club. We are happy that our Fencing Club „Špada“ from Poreč, which was founded and thrived on several big fencing Championships being held here, is celebrating its 10th anniversary in 2020 and is writing a successful sports story in Croatian sport and fencing. A story which you are a part of and are contributing to today.

But successful fencing and sports stories were made especially by fencers fencing here in the past. Many medalists and other athletes fencing here in cadets and juniors championships in Poreč are writing their wonderful sports stories in today's world of fencing. We hope that this Championship in Poreč will be a beautiful motivational memory in your future fencing competitions and preparation.

Thanks to this beautiful city and a great opportunity provided by the European Fencing Confederation, combined with our knowledge in organising big fencing events, and above all – your effort and experience which will be shown in fencing bouts, will be a formula for an exceptional fencing event.

I wish you great fun and much success.

**Edgardo Baldo**  
President of Organising Committee

Dear fencing friends,

It is a great honor for our Fencing Club „Špada“ to organise the European Junior and Cadet Championships.

Our team worked hard to prepare everything in the best way from the sporting and logistic point of view, and we hope you will recognise this.

The motto of our European Championship is "Mosaic of Life", because Poreč-

Parenzo is the City of Mosaics, where a mosaic of different cultures and languages live together and at the same time because Fencing is a mosaic of different disciplines with different rules and styles.

I take this opportunity to thank the European Fencing Confederation and the Croatian Fencing Federation for the trust placed in us and the City of Poreč-Parenzo and all our sponsors for supporting us in this event.

I wish all the athletes and their delegations that their stay in Poreč-Parenzo will be full of memorable moments.

**Loris Peršurić**  
Mayor of Poreč

Dear fencers, dear guests,

Welcome to Poreč!

Our city is by far known as a place of tourism, with rich cultural and historical heritage, a city of wine and olive oil, but also a city of sports. It is no coincidence that Poreč is the city with the highest support for sports, compared to the number of inhabitants. Our six public sports venues, as well as numerous other locations in the city have hosted hundreds of international sports events. The hospitality of Poreč so far has been experienced by many top sport events such as World and European Handball Championships, Davis Cup, Swatch Volleyball Major Series, World Junior and Cadet Fencing Championships, European Championships in Judo, World Championships in Dancing, Grand Prix in Volleyball and many more.

I believe that you will also experience all the best that Poreč can offer and will depart from our city with plenty memorable moments.

I wish you all a pleasant stay in our city hoping to see you again here.

### **Alfredo Mendiković**

President of the Sport Union of City of Poreč-Parenzo

Dear fencers, participants and sport lovers,

On behalf of the Sport Union of City of Poreč-Parenzo and me, allow me to wish you a welcome to the European Junior and Cadet Championships in Fencing in 2020. As the president of the Sport Union, but also as a citizen, of City of Poreč-Parenzo, it is an extraordinary honour and pleasure to host all the participants of the Championships. When our City is mentioned, even far away, for the excellent sport results of our athletes together with numerous sport events organised, then this represents the highest award for the hard work and effort.

My sincere compliments to the Croatian Fencing Federation, who together with a member of our Union - Fencing Club „Špada“, has proved that the organisation skills of a smaller community can be elevated to an international level which can fulfil the highest world standards. I am also very pleased that it is the City of Poreč-Parenzo that is hosting such a grand championship, with the support of the Sport Union of City of Poreč and its sport facilities which have been used in its full potential for exactly such international events.

Naturally I shall also seize this opportunity to wish all the participants of the European Junior and Cadet Championships in Fencing great success, luck and excellent results, as well as a pleasant stay in our sport venues and the city of Poreč-Parenzo.

### **Nenad Velenik**

Director of Tourist Board Poreč

Dear fencing friends,

It represents a special honour to welcome you to the European Championships in Fencing for Juniors and Cadets in Poreč. Poreč is the City of mosaics, with regards to our history and heritage, as well as the variety of tourists and visitors it attracts today. It is also a mosaic of cultures, religions, customs and entertainment.

Poreč represents what is best of Istria – here you can taste our best recipes, our best and most famous meals (such as truffles, fuži, boškari and fritaja with local asparagus), excellent beverages and sweet delicacies, served in the same way as throughout history. The olive oils, the wines, the biska, they all come from the Istrian soil where diligent hands have been working the land for millennia. Our historical heritage is unique and practically everywhere you go you will witness remnants dating back to the Greeks and Romans. We are especially proud of our Italian heritage, which can be witnessed around every town and city in Istria. But also the connection to the sea, with the fresh fish and the fantastic shells from the Lim Fjord, will certainly not leave you without impression.

I cordially invite you to explore Poreč and Istria after the competitions and continue so when you return to one of the finest places Europe can offer. Please discover the mosaic of Poreč and Istria and take back home a small part of it in your hearts.

## The Host City

The Istrian coast is the closest part of the warm Mediterranean Sea in the heart of Europe. The Mediterranean climate from the coast towards the inner part of Istria changes. Mild and pleasant winters are indeed short compared to the warm and dry summers with approximately 2400 sun hours.

The way Poreč looks like today had been constructed by Romans 2.000 years ago, after they defeated the local tribes of Histrians. The city was in the beginning a fortified camp, then a fortified town, only to grow into an important administrative and commercial center, called Colonia Iulia Parentium. For 500 years from 1267 onwards, Poreč is controlled by the Venetians, after whom the most beautiful palaces in the city remain. In 1363 the Municipal Statute is written, and from the 15th century the specific, at that time modern, and until today well preserved eastern (land) towers and walls are constructed.

The most important cultural monument was left from the Byzantine time - Euphrasius Basilica with the Bishoperly from the 6th century. From 1861 Poreč is the capital city of Istria and the seat of the Istrian Parliament. From 1920 to 1943 the city is governed by Italy, and after 1943 together with the remaining part of Istria, Poreč becomes part of Croatia.

Today Poreč has almost 17.000 inhabitants and due to its unique geographical position, together with natural and cultural beauties, is one of strongest tourist centres of Croatia. The basic commercial sector is tourism, which is in connection with commerce, construction and agriculture.

Poreč is connected by bus with many major cities of Croatia, as well as with some cities in Italy and Slovenia.

Croatia has its own currency - Croatian Kuna. You can exchange money at exchange offices or withdraw from a bank card at ATMs. A generally approximate exchange rate is about 7,4 Kuna to 1 Euro.

The average daily air temperature in February is 10 degrees Celsius, and in March 13 degrees. You can learn more about Poreč on the web-page of the Tourist Center - <https://www.myporec.com/en>

## ECO

Imagine how many various cultural, sports and other events are held every day, every weekend, every month. Millions of people visit them, after which there remain mountains and mountains of garbage. And hardly anyone thinks about how to reduce the amount of garbage and tries to protect our nature in a profound way.

Our project is a first, the purpose of which is to show that competitions can be organised with minimal impact to the environment! Moreover, this is not just any competition, but the European Fencing Championships for juniors (U20) and cadets (U17). Additionally, it is the younger generations whose understanding and care for the future will make a difference in the long run. Our purpose is to organise the largest sporting event for younger fencers in European fencing in 2020 with a minimum amount of garbage and minimal impact to the environment.

For example, we will arrange for free drinking water in the hall so that you use less plastic containers. We will use only eco-friendly packaging to award winners. We will not spend extra paper, because you can track all the information you are interested in on the Internet.

We kindly ask you to disassemble the garbage depending on its type, use plastic as little as possible and be sure to follow the information on environmental protection on the official website of the championship and other Internet sources.

During the championship, it is planned to conduct multiple environmental programs, which we will talk about on the official web page of the championship and social networks. Do not miss and help us make our championship the most environmentally friendly!
