

Dear President,

Specialized Fencing Veterans Support Endowment

In 2012, International Charitable Foundation "For the Future of Fencing" incorporated the Specialized Fencing Veterans Support Endowment ("VSE") and funded it with USD 10,000,000. The annual return is expected to become available in April 2014.

The VSE Board meeting is scheduled to take place in April 2014 to allocate the annual return in accordance with the following priorities:

- to provide fencing veterans with access to medical services (co-financing expensive treatment, surgeries, medication, etc.);
- to provide fencing veterans with access to medical insurance;
- to assist fencing veterans in complicated circumstances (e.g. in order to resolve material problems; home repairs, vehicle repairs, etc.); and
- to finance programs and events for the social support of fencing veterans.

The VSE's primary goal is to provide fencing veterans with medical assistance and to improve their conditions of living.

The VSE will provide assistance to fencing veterans upon receipt of written requests and, when required, supporting documents from national fencing federations.

You are, therefore, kindly requested to arrange for the collection of such requests from your fencing veterans and their subsequent submission to the VSE before the end of March 2014 at the following address:
