Please specify the period:

### 3. CV

I am honored to serve as President of the FIE Medical Commission (2021-2024) and to be the lead medical delegate for the Paris 2024 Olympic Games. During my tenure, I have led efforts to implement a comprehensive sport injury and illness epidemiology system while overseeing medical regulations and education across the federation. As a member of the FIE Medical Commission from 2016-2021, I contributed to key medical advancements, ensuring athlete safety and optimal care.

As Director of Sports Medicine for USA Fencing (2013-2021), I managed over 25 multidisciplinary medical providers, delivering medical coverage for more than 55 domestic and international competitions annually. I served as the team doctor for USA Fencing at both the Rio 2016 and Tokyo 2021 Olympic Games, with athletes achieving multiple medals. Additionally, I have provided medical support for over 20 World and Zonal Championships.

Currently, I manage the Sports Medicine Department at the UFC Performance Institute in Shanghai, where I oversee athlete health, injury management, and rehabilitation programs. My role includes leading epidemiology efforts and ensuring high-performance medical care for elite MMA athletes.

With over 20 years of experience in Olympic sports, combat sports, and sports medicine, I am dedicated to advancing athlete health, safety, and performance through innovation, collaboration, and leadership.
