Letter of information n°9-2003
November 10, 2003

Internet web site of the FIE

LETTRE D'INFORMATION DE LA FIE

Ladies and gentlemen,

The new Internet site of the FIE in the 3 languages of the FIE was on-line on September 1st, 2003, after more than 2 years of work.

Besides the complete "new look" of the site, the novelty consists of the coupling of the site with the creation of a big unique data base managing and automating the data of the FIE.

For example, from January 2004, the organizers of competitions will send the results directly to the site; these will be validated and the ranking automatically updated. Furthermore, the results and the rankings will feed automatically into the general data base of the FIE, thus up-dating the athletes files, used for the Olympic Games.

Observers' competitions reports are to be filled in directly on the site and not on paper anymore, and the information contained in these reports will also feed into the same data base with the aim of the establishing statistics.

The members of commissions acting as observers will register themselves directly onto the web site, by means of a user name and a password.

The entry of the fencers and the teams in World championships and Grand Prix is also to be made on-line on the site by the national federations, and not through the organizers anymore.

In order to help you to use all the features of this new site, please find attached a document named "How to use www.fie.ch". You can also find this document in the menu "Help" on our site.

René Roch
Président
