Via e-mail

Dear Mrs President,
Dear Mr President,

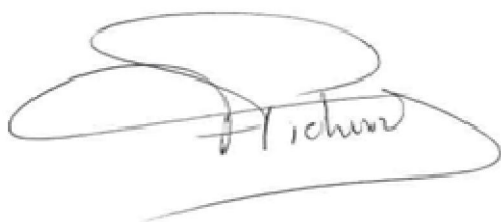

As you know, the upcoming Congress 2015 will have to approve the calendar for the season 2016-2017. In order to carry on with the calendar reform, inaugurated during the season that is just come to an end, it was deemed interesting for our purposes, launching a new call for biddings, in order to build a calendar, which will be valid for the Olympic cycle 2016-2020, to broaden our common horizons, always taking into account the history and the quality of the competitions organizations.

Within this context, we invite you to fill in the application that you will find herewith, according to the instructions contained in the form itself. Following the remarks received, the senior world cup competitions, men's and women's ones at a same weapon, have been staggered, to match the request of those countries having a single coach for both teams, in order to avoid that they have to face the choice to privilege one team at the expenses of the other one.

We hope to receive many applications from your side.

Best regards,

Frédéric Pietruszka
Secrétaire général

A handwritten signature in black ink, appearing to read 'F. Pietruszka', is written over a large, light-colored circular stamp or watermark.
